03 Typography

HEADINGS · NUNITO 800 / 700

Sell more seats on every route

BODY · NUNITO SANS 400 / 600 / 700

Nunito shares the wordmark's rounded geometric construction, so headings sit naturally beside the logo. Nunito Sans is its straight-terminal companion, built for long reading at small sizes.

04 Clear space and minimum sizes

Keep clear space of 1 T on every side, where T is the cap height of the "T" in the wordmark at the size used.

Horizontal lockup: 32 px high	Full logo: 120 px wide
Wordmark: 96 px wide	Symbol: 48 px high
Print: full logo 30 mm wide	Below these, use the mark

05 Small-size mark

PROPOSAL · PENDING APPROVAL

The green pin and person, lifted unchanged from the symbol. Pin interior is filled white so it holds on dark browser tabs.

16 px · actual and 8x

32 px · actual and 4x

apple-touch-icon.png · 180 px

Maskable · circle mask preview

ALIGNMENT RULES

"A PRODUCT OF" is set in Montserrat 600, uppercase, letter-spacing 0.227em, the same tracking as "TECHNOLOGIES" in the Bullion logo. Its baseline sits on the baseline of "Bullion". The Bullion logo is the same height as the TrackStar lockup, with 10 px between label and logo at 40 px.

TEXT-ONLY ALTERNATIVE
